It is important at all levels to look ahead and make a careful and planned choice of subjects. Students have been provided with a **Course Selection Guide** designed to assist in this process. Please read this book and information on the school website BEFORE making option choices.

If you know the career you are interested in, you need to make sure you have the right subjects or keep a broad base and study a range of subjects that interest you. Students can research this by referring to Careers NZ [www.careers.govt.nz](http://www.careers.govt.nz). From the home page, choose **Jobs database**, select **Search**, look up the job then look under **How to enter the job** for secondary school subjects which are required or recommended.

What ideas do you have about what you might do when you leave school?

What subjects do you think you might need in order to do this?
